

Welcome to Nebraska Total Care

What is the Nebraska Total Care Value-Add Drug List?

Nebraska Medicaid covered drugs on the State Preferred Drug List can be found: <https://nebraska.fhsc.com/PDL/PDLlistings.asp>. Nebraska Total Care also covers additional drugs. A team of doctors and pharmacists meets regularly to choose which drugs should be on the Nebraska Total Care drug list. The team reviews new and existing drugs and chooses drugs that work best and are safe.

How do I use the Nebraska Total Care Value-Add Drug List?

Look for your drug in the index at the end of this booklet. The index lists all of the drugs on the drug list. Both brand name drugs and generic drugs are listed in the index. Next to your drug, you will see the page number where you can find your drug.

The table below tells you what the abbreviations on the Drug List mean.

<i>Abbreviation</i>	<i>Term</i>	<i>What it means</i>
AL	Age Limit	Some drugs are only covered for certain ages.
F	Formulary	These drugs are covered on the Drug List.
PA, SmartPA	Prior Authorization	Some drugs need approval from Nebraska Total Care before they will be covered.
QL	Quantity Limit	Some drugs are only covered for a certain amount.
RX/OTC	Prescription and OTC	These drugs are made in both prescription form and Over-the-counter (OTC) form.
SP	Specialty Drug	Specialty drugs are high-cost drugs used to treat complex or rare conditions and may be limited to a specific pharmacy.
MP	Maintenance Therapy	Nebraska Total Care allows 90-day supply of medications used to treat chronic conditions at participating pharmacies.

What if my drug is not on the Nebraska Total Care Value-Add Drug List?

If your drug is not on the Nebraska Total Care drug list, or the State Preferred Drug List, call Member Services at 1-844-385-2192 and ask if your drug is covered. If your drug is not covered, you can ask your doctor to prescribe a similar drug that is covered. If your doctor feels you need to have the drug that is not covered, your doctor can ask us to make an exception.

Can I go to any pharmacy?

Members must use pharmacies that are in the network. These pharmacies have a contract with Nebraska Total Care. To find a pharmacy, call Member Services at 1-844-385-2192.

Are there any limits on my drug coverage?

Some drugs have limits on coverage. If a drug has limits, it will be noted in the requirements/limits column on the Drug List.

How can I get an exception to the rules for drug coverage?

Your doctor can ask for an exception to our rules for drug cover.

- Your doctor can ask us to cover your drug even if it is not on the drug list
- Your doctor can ask us to make an exception for limits on your drug. For example, if your drug has a quantity limit of 1 tablet per day, your doctor can ask us to cover more.

To request an exception, your doctor can fax a prior authorization form to us at 1-833-404-2254. Once we receive your doctor's request, we will make our decision within one business day.

What if I am a new member?

If you are a new member in our plan, you may be taking drugs that are not on our drug list. This drug may also not be on the State Preferred Drug List. You may also be taking a drug that is on our drug list, but the drug may have some limits. In these cases, you should talk to your doctor to see if you should change to drugs that we cover. Your doctor may request an exception so that we could cover the drug you have been taking. See the section, "How do I get an exception to the rules for the drug coverage?" for more information.

What are over-the-counter drugs?

Over-the-counter (OTC) drugs are drugs you can buy without a prescription. The Nebraska Total Care Value-Add Drug List covers OTC drugs that are not covered by the State Preferred Drug List. However, if you want Nebraska Total Care to cover an OTC drug on the drug list, your doctor must write a prescription for that drug.

Are brand name drugs covered?

Your pharmacy benefit does not cover brand name drugs when generic drugs are available. Brand name drugs may be covered when generic drugs are not available. Brand name drugs could be covered if your doctor states the brand name drug is medically necessary. If a brand name drug is covered, a \$3.00 copay may apply.

What is a generic drug?

A generic drug contains the same active ingredient and works the same way as the brand name drug. Generic drugs must be safe and effective.

Will the pharmacist give me a generic drug if one is available?

Yes. Pharmacies may give you a generic drug, unless your doctor says that you must take the brand name drug or preferred by the state.

Are there any excluded drugs?

Excluded drugs

The Nebraska Total Care Value-Add Drug List does not include certain drugs. The following types of drugs are not included on the drug list because they are excluded from coverage:

- Drugs that do not have FDA approval
- Drugs that are being tested but not approved yet
- Drugs to help you get pregnant
- Drugs used for weight loss
- Cosmetic or hair-growth drugs
- Drugs used to treat sexual problems-
- Drugs not on the OTC Drug List
